

The graph displays a single, symmetric peak of laser power. The x-axis is labeled 'nm' and has major tick marks every 1 nm from 792 to 798. The y-axis is labeled 'Laser Power' and has major tick marks every 0.2 units from 0.0 to 1.0. The curve starts near zero at 792 nm, rises to a maximum of 1.0 at 795 nm, and then falls back to near zero by 798 nm.

Wavelength (nm)	Laser Power
792	0.00
793	0.05
794	0.40
795	1.00
796	0.40
797	0.05
798	0.00

A perspective view of the device 10, showing the front panel 18, the side panel 19, and the internal components 11, 12, 13, 15, 16, 17, and 20.
